# Introduction

## Introduction With Core value & Belief

**PrimeTeck Wave Innovations** formally Nova Corporation Founded in year 2016, offering innovative technical solution across industries.

Our advance tech skill empowers clients in the digital age, making us as leaders in impactful tech process with the aim of providing expertise in renewable energy development and power systems providing full scope services in system engineering and integration, and more importantly renewable energy Design, Construction and Consultancy in the fields of solar photovoltaic (PV), and Electrical Control systems.

BEST SAFETY PRACTICES

WE DELIVER QUALITY

WE ARE PASIONATE

Core value & Belief

● **Industry** : Power & Energy

● **Founded** : 2016

● **Operations Office** :

Plot4 Bunmilola street off Asiwaju crescent Elepe Ikorodu Lagos

● **Website** : [www.primeteckwave.com](http://www.primeteckwave.com)

● **Email** : [project@primeteckwave.com](mailto:project@primeteckwave.com)

# Executive Summary

Energy availability for households & communities is one of the primary considerations at PrimeTeck Wave and to this effect, we are pushing for the use of renewable energy systems for many of its installations. This not only reduces the carbon footprint of those who use it, but also means such installations are self-sustaining.

## Overview

- **Year Founded :** 2016
- **Operations Office :** Plot4 Bunmilola street off Asiwaju crescent Elepe Ikorodu
- **Industries Served:** Banks, Oil & Gas, Schools, Manufacturing Industries, Residential etc.

## Achievement

- Installed over 15,000 panels on roof-tops
- converted over 45 commercial and residential buildings to solar

- Fabrication of a DC bus distribution panel used on over 50 commercial buildings
- Fabricated over 100 AC control Panels for all the major solar firms and commercial buildings.
- 60+ Project Completed

# Our Service Offerings

## Power Transformer & Distribution Network Installation

Making power available and accessible remain our top most priority. We put our customer and end user first in all our action plan.

## Energy Management System

We provide effective energy management solution and analysis. Our team is available 24/7 to provide timely and effective support to our clients.

## Electrical & Solar Installation

Our experienced team provides high-quality services in Electrical and Solar system EPC with a focus on innovation and efficiency.

## CCTV Surveillance System

We take security of human and valuable asset to a very high esteem. With our team of professionals, We assure optimum service delivery.

## Electrical Control System and Automation

We offer a top-notch Electrical Control System across industries.

# Our Vision and Mission Statement

## Vision

01

To become African's leading expert in solar installation, maintenance and energy efficiency service offered at best price

## Mission

02

### Customer Satisfaction Commitment

- ✓ Unwavering focus on customer need
- ✓ Recognition Through Superior Service

# PORTFOLIO PROJECT

»» . . . C & I

»» . . . Mini-Grids

»» . . . Residential &  
SME

# Portfolio Project

**Project**  
**Justrite Superstore**  
**sango ibadan**

**Capacity**  
**333kWp**

**Location**  
**Oyo State**

**Developer**  
**Powercell**

## Description

A total of 740 units of JA 450Wp solar panels and 4 units of Huawei 50kTL sun2000 inverters was installed

# Portfolio Project

**Project**  
**Auto Phase Sequence  
Correction Panel**

**Capacity**  
**800VA**

**Location**  
**Benin, Edo State**

**Client**  
**MOWAA**

## Description

This project involve design and fabrication of 800VA Auto phase sequence correction panel, consisting heavy duty switching Schneider 2000A contactors

# Portfolio Project

**Project**  
State Gov. Secretariat

**Capacity**  
707.2kWp

**Location**  
Ibadan, Oyo State

**Developer**  
Royal Power and Energy

**Main EPC**  
QuantumX Limited

## Description

A total of 1670 units of Jinko 400Wp solar panels and a Containerized Jinko BESS was installed

# Portfolio Project

Project

**British America  
Tobacco**

Capacity  
**996kWp**

Location  
**Oyo State**

Developer  
**Shell | Daystar Power**

Main Contractor  
**QuantumX Limited**

## Description

A total of 2,548 units of Jinko 550Wp solar panels and 12 units of SMA SHP solar inverters was installed

# Portfolio Project

Project  
**Ofosu Community**

Capacity  
**432kWp**

Location  
**Ondo State**

Developer  
**PowerGen**

Main Contractor  
**Eauxwell Nigeria  
Limited**

## Description

A total of 960 units of JA 450Wp solar panels and 8 units of SMA 50kW solar inverters, 550kVA firming PCS, 1.1MWh CATL BESS, 500kVA step-up and 200kVA step-down Transformer was installed

# Portfolio Project

Project

**Olam Farm Kaduna**

Capacity

**1502kWp**

Location

**Kaduna State**

Developer

**Shell | Daystar Power**

Main Contractor

**QuantumX Limited**

## Description

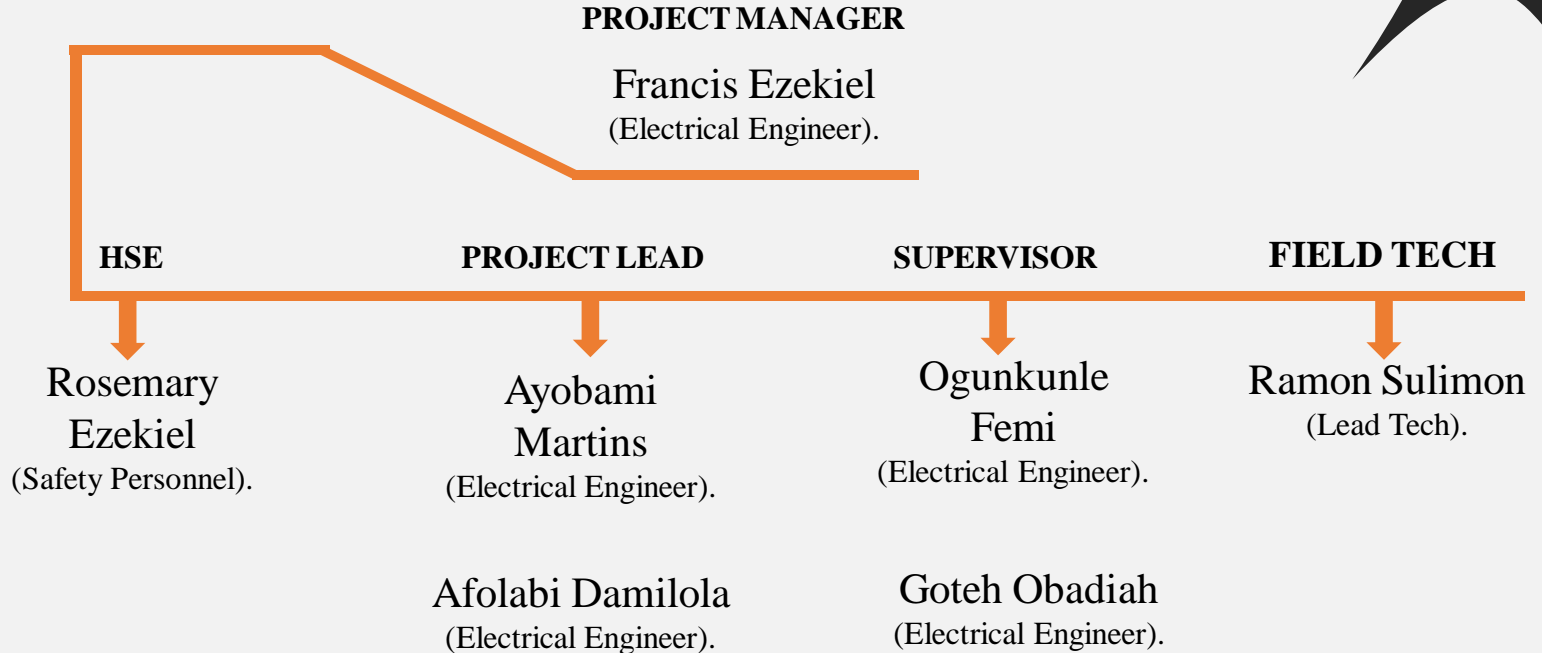

A total of 2252 units of Jinko 715Wp solar panels and 26 units of Huawei SUN 2000-50KTL-M3 solar inverters was installed.

# Other Projects

- Star-delta Motor starter
- Milling Machines
- Auto Phase sequence correction panel
- Direct online motor starter
- Synchronization Panel
- Automatic Transfer Switch
- 415/230v Feeder pillar
- Distribution Panel
- PV Combiner Box
- AC Combiner Box Solar Installation
- Automatic Phase Selector
- DC Panel for Battery Bank / Solar Installation
- Etc..

# Project Organization Team

**Safety  
Remains our  
top priority**

**Project Installation Team**
